

Third Texas Monetary Conference

Texas A&M University

April 1–2, 1995

There are no known records of the formal program from the third conference at Texas A&M in 1995. Based on conversations with attendees at that conference we know that the presenters included Lawrence J. Christiano, Jeremy Greenwood, Russell Cooper, Sergio Rebelo, and Carlos Vegh, and that the discussants included Carlos Zarazaga (FRB Dallas) (who discussed Vegh's paper).
